

In The Abstract:

On page 23 of the English language translation of the German PCT Application, please amend the abstract to appear as follows:

The invention relates to a halogen-free composite film including at least three to N sealable, multi-layered composite film(s), wherein N is an integer from 4 to 10, and in which a functional layer and/or a functional element is interposed between the individual composite films. In addition, the invention relates to a method for manufacturing the halogen-free composite film and its use as a flexible, multi-purpose material.
